## **SUMMARY OF QUALIFICATIONS**

- Licensed Landscape Architect in the State of California, PLA Lic. #6392
- Over 15 years landscape construction, maintenance, and design experience
- Over 5 years working in Landscape Architecture
- Professional member of the American Society of Landscape Architects

## **PROFESSIONAL EXPERIENCE**

### **Founder | Principal**

Brodie Hegg Landscape Architecture, Monterey CA

January 2020 – present

- Design studio with the focus on the development of relevant landscapes and irrigation systems for residential and commercial projects
- Oversees all aspects of the design studio
- Growth and collaboration oriented
- Develops planting, irrigation, and site plans
- Conducts site inventory and analysis

### **Landscape Designer**

Ground Studio, Monterey CA

May 2017 – January 2020 · 2 yrs. and 7 mos.

- Explored site potential through graphic renderings and 3D modeling
- Orchestrated submittals for City and County Permits
- Established and maintained communication with project teams
- Coordinated with workplace team, clients, and project architects and engineers
- Developed Construction Documents for the proper implementation of designed landscape
- Designed construction details for all aspects of the design
- Coordinated with contractors on all relevant aspects of pool designs
- Performed Construction Observation services, overseeing the process of installation of irrigation systems, hardscape elements, and plant material

### **Landscape Designer and Design-Build Coordinator**

Rana Creek Habitat Restoration, Carmel Valley CA

November 2014 – May 2017 · 2 yrs. and 6 mos.

- Developed construction documents used to implement designs
- Documented “as-built” conditions for the purpose of aiding the maintenance of installed landscapes
- Installed irrigation mainlines, pumps, and Two-Wire controller systems for multi-acre restoration site
- Oversaw the installation and maintenance of Living Walls and Green Roofs
- Designed and documented irrigation plans at a variety of scales
- Participated in the restoration of natural habitats, including the 65-acre Carmel River Reroute and San Clemente Dam Removal project

- Developed rain-water catchment and reuse systems
- Established planting schedules and layouts for green roofs, private residences, and shared spaces of apartment complexes
- Produced cost estimates and budgets for landscape construction projects
- Coordinated project schedules, material deliveries, and crew management for the completion of multiple residential and commercial projects
- Participated in quality control of nursery stock to ensure projects received healthy and thriving plant material

**Instructor**, Japanese Agricultural Training Program  
UC Davis Extension, Davis CA  
July 2013 – September 2013 · 10 weeks

I was the Landscape Specialty Instructor for a course designed to examine landscape design principles and their business applications. The students participated in a 19-month long program gaining hands on experience in the field of landscape construction and nursery management. This program, hosted by the Japanese Agricultural Exchange Council, culminated in a 10-week classroom session. The students applied the knowledge gained through their work experience, along with the principles learned in class, to develop a business plan.

## EDUCATION

- Bachelor of Science in Landscape Architecture with a minor in Art Studio, University of California, Davis, June 2014
- Associates of Science in Landscape Architecture, Modesto Junior College, December 2010
